Mid-January 2017

Welcome to the Mid-Januray 2017 Edition of What's Emerging

Welcome back to our newsletter. We hope that you all had a great Christmas and New Year and those that were able to take longer breaks are back feeling refreshed and raring to go for the year ahead. After last year's raft of surprises anything could happen.

As always the first edition of our newsletter for the year is a collection of predictions from various sources.

We do not really subscribe to forecasting but they make interesting reading and as long as you look at them with a very critical eye they can be useful.

We hope that you continue to find the newsletter interesting.

Cheers,

Paul Higgins, Sandy Teagle, Ranjitha and Samantha Kyle-Little

Text Expander

Imagine never typing the same email address, chunk of code, brand message, directions or data more than once. Store them in a snippet—a keyboard shortcut you create. Use them for yourself, share them with your team, update across all your devices. Paul: We have started using this internally and we are already saving time. [Read More...](#)
